Spring 2019 Javascript Team

Members:

- Brian Fu
- Kendall Choy

Tasks:

1. Separate the javascript framework from the old JSP infrastructure
2. Host a standalone instance that supports pure js games to "plug-and-play".
3. Templated the interface for easy implementation in the future
4. Developed bare-bones front end to 10-to-0

Todo:

1. Make javascript games to plug and play.
